2020 Harvard Environmental Economics Program Student Paper Prize Winners

The Mossavar-Rahmani Center Prize for the Best Paper by a Master's Student is shared by Sophie Gardiner and Sujoy Bhattacharyya for their paper:

"Where There's a WUA, There's a Way: Using Impact Evaluations of an Irrigation Program in West Bengal to Improve Support for Farmers."

Second Year Policy Analysis (SYPA). Master in Public Administration in International Development capstone project

SYPA Advisor: Jie Bai, Assistant Professor of Public Policy, HKS.

SYPA section leader: Michael Walton, Senior Lecturer in Public Policy, HKS.

The Harvard Environmental Economics Program has, for the eleventh consecutive year, awarded three prizes to Harvard University students for the best research papers addressing a topic in environmental, energy, or natural-resource economics – one prize each for an undergraduate paper or senior thesis, master's student paper, and doctoral student paper. Each prize was accompanied by a monetary award. The Harvard Environmental Economics Program (HEEP) is a University-wide initiative based in the Harvard Kennedy School's Mossavar-Rahmani Center for Business and Government that seeks to develop innovative answers to today's complex environmental challenges.

Robert Stavins, A.J. Meyer Professor of Energy and Economic Development at Harvard Kennedy School (HKS) noted, "The papers submitted this year were of very high quality, addressing a number of important topics in environmental and natural-resource economics. We are delighted that students across Harvard University participated in this year's HEEP paper competition, which we hope will serve to encourage further student engagement on this set of issues in the future."

About the sponsors and the prizes:

HEEP is based in the Mossavar-Rahmani Center for Business and Government at Harvard Kennedy School. The Center's mission is to advance the state of knowledge and policy analysis concerning some of society's most challenging problems at the interface of the public and private sectors.
